LEXMARK™

Eco-Settings

Administrator's Guide

Contents

Overview

Use the application to manage energy consumption, noise, toner usage, and paper usage settings to help reduce the environmental impact of the printer.

Configuring the application

Configuring energy- and paper-saving options

1 From the Embedded Web Server, access the configuration page for the application.

2 Adjust the energy- and paper-saving settings.

Notes:

- Some printer models let you print on both sides of the paper.
- Selecting **Energy/Paper** automatically sets **2-Sided Printing** and **Sleep Mode** to the default values.
- Quiet Mode may reduce the processing speed, delaying the time before the first page is printed.
- Lock UI prevents users from changing the settings from the control panel.
- The settings may vary depending on the printer model.
- For more information on each setting, see the mouse-over help.

3 Apply the changes.

Scheduling energy-saving tasks

1 From the Embedded Web Server, access the configuration page for the application.

2 Add or edit a scheduled power mode.

3 Select an energy-saving task, and then set the time and day for the printer to perform the task.

4 Apply the changes.

Configuring the settings from the control panel

Note: Make sure that **Lock UI** is not selected in the configuration page for the application.

1 From the home screen, touch the application icon.

2 Adjust the settings.

3 Apply the changes.

Enabling Eco-Mode

1 Touch **Eco-Mode**, and then select a setting.

Notes:

- Some printer models let you print on both sides of the paper.
- Selecting **Energy/Paper** automatically sets **2-Sided Printing** and **Sleep Mode** to the default values.

2 Apply the changes.

Enabling two-sided printing

1 Touch **2-Sided Printing**.

2 Select **2-Sided Long Edge** or **2-Sided Short Edge**.

3 Apply the changes.

Enabling Quiet Mode

1 Touch **Quiet Mode** > **On**.

2 Apply the changes.

Note: Quiet Mode may reduce the processing speed, delaying the time before the first page is printed.

Setting other options

- **Standby Mode**—Set how long the printer goes into standby mode.
- **Sleep Mode** or **Power Saver**—Set how long the printer goes into Sleep Mode or Power Saver mode.
- **Screen Brightness**—Set the brightness of the screen.
- **Toner Darkness** or **Darkness**—Set the darkness of the printed documents.

Scheduling energy-saving tasks

1 Touch or **Advanced Options**.

2 Select an energy-saving task, and then set the time and day for the printer to perform the task.

3 Touch or **Add**.

4 Apply the changes.

Note: Changes made to tasks from the control panel are also applied in the Embedded Web Server.

Appendix

Accessing the configuration page for the application using the Embedded Web Server

1 Open a Web browser, and then type the printer IP address.

   Note: View the IP address in the TCP/IP section of the Network/Ports menu.

2 Click **Settings** or **Configuration**.

3 Depending on your printer model, do one of the following:
   - Click **Apps** > **Apps Management**.
   - Click **Device Solutions** > **Solutions (eSF)**.
   - Click **Embedded Solutions**.

4 Select the application from the list, and then click **Configure**.

Customizing the application icon

1 From the Embedded Web Server, access the configuration page for the application.

2 Specify the text and image that you want to appear on your home screen.

   Note: Some applications require changing the settings from the profile page.

3 Apply the changes.

Exporting or importing a configuration file using the Embedded Web Server

1 From the Embedded Web Server, access the configuration page for the application.

2 Export or import the configuration file.

Notes:
- If a `JVM Out of Memory` error occurs, then repeat the export process until the configuration file is saved.
- If a timeout occurs and a blank screen appears, then refresh the Web browser, and then click **Apply**.

Checking the version of the Embedded Solutions Framework

1 From the Embedded Web Server, click **Reports** > **Device Settings**.

2 In the Embedded Solutions section, note the value associated with "Framework =."

Note: To view the complete list of supported printers for each version of the Embedded Solutions Framework, see the *Readme* file.
