Security and performance

Lexmark CX735adse

The Lexmark CX735adse is designed for performance, security, and ease of use for mid-to-large workgroups at speeds up to 52/50 (letter/A4) ppm*. Single-pass two-sided scanning, ultrasonic multifeed detection, and a 10-inch (25 cm) tablet-like touchscreen make handling your print jobs easy. Toner cartridges that yield up to 28,000/16,200 black/color pages** keep you going.

Made to last. Easy to upgrade.

- ▶ With durable steel frames, long-life components and high-yield cartridges, printers are intentionally engineered to last seven years or more.
- ▶ Long-lasting Unison™ Toner delivers consistently outstanding print quality, reduces internal wear on long-life components, and protects the print system.
- ▶ Easily upgradable to the latest apps and security features.

Faster performance and ease of use

- ▶ Scanning is fast and accurate thanks to the single-pass two-sided automatic document feeder with ultrasonic multifeed detection.
- ▶ The large, tablet-like, button-free touchscreen will help you intuitively complete every task, from the basic to the complex.
- ▶ An Intelligent Storage Drive (ISD) is standard on this model, providing faster startup, faster data retrieval and more reliability.

Make a statement with professional color

Enjoy the benefits of vibrant, professional-quality output allowing you to do more color printing in-house—saves time and money. Match corporate colors on marketing collateral and brand-sensitive text and graphics with PANTONE® calibration and Lexmark Named Color Replacement.

Secure by design

- ▶ Lexmark security features help keep your information safe—in the document, on the device, over the network and at all points in between.
- ▶ Always improving security, we now include a standard Trusted Platform Module***, which delivers authentication, system integrity checks, and cryptographic capabilities to create a unique digital system fingerprint.

Sustainability matters

- ▶ Designed for the circular economy.
- ▶ Automatic two-sided printing is standard, along with built-in energy-saving modes that help support ratings of EPEAT® Silver and ENERGY STAR® certified.
- ▶ The award-winning Lexmark Cartridge Collection Program (LCCP) and Lexmark Equipment Collection Program (LECP) minimize waste and support recycling (availability varies by country).

Power up with IoT

- ▶ Sophisticated, IoT-enabled printers are loaded with sensors that continuously monitor hundreds of data points.
- ▶ When you connect your device to Lexmark Cloud Services, you can optimize performance and uptime with additional features like predictive service and automatic supplies replenishment.

This is a Class A device according to international electromagnetic emissions standards (i.e. FCC Rules, EN 55022/EN 55032, etc.). Class A products are intended for use in non-residential/non-domestic environments. Use of a Class A product in residential/domestic environments may cause interference to radio communications and require corrective measures.

* Print speeds measured in accordance with ISO/IEC 24734 (ESAT). For more information see: www.lexmark.com/ISOspeeds.

** Average continuous black or continuous composite color (CMY) declared yield in one-sided (simplex) mode up to this number of pages in accordance with ISO/IEC 19798. Actual yield will vary considerably based upon many factors. See www.lexmark.com/yields for more information. Yield stated on cartridge labels, packaging, and printer device menu pages may be substantially lower than final ISO tested yield. For Lexmark's official statement of yield, see ISO yield reports at https://www.lexmark.com/en_us/products/supplies-and-accessories/iso-page-yields/color-laser-reports.html. Update firmware on your device to ensure accuracy of displayed yield. In demonstration of circular economy principles, genuine Lexmark supplies with Unison™ Toner may contain components recovered from the Lexmark Cartridge Collection Program (LCCP).

*** The Trusted Platform Module (TPM) is not available in some countries.

² "Recommended Monthly Page Volume" is a range of pages that helps customers evaluate Lexmark's product offerings based on the average number of pages customers plan to print on the device each month. Lexmark recommends that the number of pages per month be within the stated range for optimum device performance, based on factors including: supplies replacement intervals, paper loading intervals, speed, and typical customer usage. ³ "Maximum Monthly Duty Cycle" is defined as the maximum number of pages a device could deliver in a month using a multishift operation. This metric provides a comparison of robustness in relation to other Lexmark printers and MFPs. ⁴ Product functions only with replacement cartridges designed for use in a specific geographical region. See www.lexmark.com/regions for more details. ⁵ Average continuous black or continuous composite CMY declared cartridge yield up to this number of standard pages in accordance with ISO/IEC 19798. ⁶ Actual Yield may vary based on other factors such as device speed, paper size and feed orientation, toner coverage, tray source, percentage of black-only printing and average print job complexity. ⁷ Printers are sold subject to certain license/agreement conditions. See www.lexmark.com/printerlicense for details.
